

Eagle Class

Summer Term 2024

Welcome Summer!

Welcome back to the summer term of year 4. It has been wonderful welcoming all the children back and seeing them settle into our classroom routines.

English

We have started in English by continuing our learning sequence exploring the purposeful techniques used in both 'The Lucky Dip' film and 'The Voices in the Park' text, which will lead into our own story writing focusing on point of view.

This will then transition into our learning around information text writing. We will focus on the beautiful book; 'The Big Book of Blooms', which will suit the summer

PE

Eagle class have been focusing on Cricket to start the Summer term.

Eagle Class have PE on a Tuesday and Thursday. Please send your children to school wearing their PE kits on these days.

Maths

As mathematicians, we are continuing our learning around fractions and decimals.

This is an important time for us in Eagle Class with the multiplication check approaching. All children should be concentrating and working hard to know their times tables up to 12×12 . Please continue to practise these!

Humanities and RE

We have commenced our journey in Humanities with a focus of Our Local History. This will involve our class exploring the past and present of our local area.

During RE, we will begin by focusing on Pentecost with our topic in Year 4 being 'New life'.

Dojo and Homework

The children will be set weekly homework tasks on a Friday that are uploaded on to class Dojo, following on from the expectations set in the Autumn term.

The weekly homework tasks will consist of; reading, practising spellings, completing Maths tasks on the online platform called Mathsflex, and Times Table Rock Stars to practise times tables.

I am very excited to be teaching the children this term and hope you are looking forward to hearing about our learning and seeing some of the amazing work we produce.

If you have any questions please do not hesitate to contact me through Class Dojo.

Thank you to everyone for your continued help in supporting the children's learning.
