Owl Class

Happy New Year!

Welcome back, Year 3.

Days of working:

Mr Smale (Mon, Tues, Weds)

Mrs Fryers (Thurs, Fri)

In English this term, we are starting with 'Escape from Pompeii' before moving on to a non fiction text about plants.

We will be working hard to develop our handwriting, making sure that all our writing has a consistent style. Practicing colouring in and cutting at home really helps develop fine motor skills to aid handwriting.

In RE we will look at Galilee to Jerusalem, looking at the Magi and the gift they brought.

Our science has begun with 'Organisms' and we look what organisms need for nutrition. Then after the half term break learn about plants.

In Humanities we start with 'Volcanoes' before looking at 'Ancient Egyptians.'

In our Music will learn to play the recorder this half term.

In Power Maths with Multiplication and Division and fractions being looked at after the half term.

In Year Three we need to aim to have learnt our 3,4 and 8 times tables. This follows on from mastering our 2, 5 and 10 times tables in Year Two.

Homework will go out each Friday. This will include the class Guided Reading text, please look at this as it will give your child a head start before the coming week.

Please make sure that reading diaries and school reading book are brought into school each day.

We encourage reading your school reading book a few times at home to build fluency and an expressive story voice. If you would like any more books to share at home please visit the lending library in school or the public library as it is important to develop a love of reading as well as the fundamental skills.

PE is on Wednesdays and Fridays so your child can wear their kit to school on those days.

Please make sure that all property that is brought into school is named.

It is vital that you keep in contact with the school through platforms such as Class Dojo as well as Parentpay. The majority of important notices are fed through these platforms. If you need help with these please ask.
