

Accessibility Plan

Our Lady's School Accessibility Plan

School Aims

At Our Lady's we aim to provide a Christian, caring, secure family environment where each child is valued as an unique individual who is able to benefit from and contribute to the life of the school.

We value the trust placed in us by parents of the children in our care and we strive to ensure that all our children prosper and thrive. The environment we create is one where the children feel confident, secure, valued and able to express their views and opinions whilst understanding the importance of listening to others.

Purpose of the plan

This plan shows how Our Lady's Catholic Primary School intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/carers and visitors.

To ensure compliance with the Equality Act 2010 and the Disability Discrimination Regulations (Times and periods for accessibility strategies and plans for schools) 2005.

Definition of disability

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse effect on his/her ability to carry out normal day-to-day activities.

Areas of planning responsibilities

- Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits).
- Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education).
- Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. The information should take account of pupils' disabilities and pupils and parents preferred formats and be made available within a reasonable timeframe).

Our Lady's Catholic Primary School has been in its current location since 1969. The original single store building houses the whole school including classrooms, offices, hall and kitchen facilities. The most recent addition to the school are two new classrooms which were completed in early 2014. The main entrance to the school has level access and access to most of the classrooms via other entrances are level and accessible to all. However, four classrooms (currently Barn-a-bs, Robins, Herons, Puffins and Owls) have small steps up into their classroom when

accessed from the playground. Within the interior of the school there are steps from Heron and Robin classroom into the school hall. This is not accessible for wheelchair users. We provide a disabled toilet for both parents, visitors, staff and children.

At present we have no wheelchair dependent pupils, parents or members of staff.

Current range of known disabilities

The school has children with a range of disabilities to include moderate and specific learning disabilities.

We currently have any pupils who have a hearing impairment and one pupil with glaucoma.

Increasing access for disabled pupils to the school curriculum

Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes.

In two of our core values of the school we aim to help our children develop lively, imaginative and enquiring minds and to nurture a love of learning and we know that at the heart of everyone there are gifts of the spirit and we aim to discover and nurture the full potential of each individual. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure and cultural activities and educational visits.

Improving access to the physical environment of the school

Our Lady's has recently undergone an expansion which included relocation of most classes and the addition of a further classroom. The school also operates its own pre-school (Barn a B's).

Provision, in exceptional cases, will be negotiated when a pupil's specific needs are known.

We have a wide range of equipment and resources available for day to day use. We keep resource provision under constant review. The School Development Plan is the vehicle for considering such needs on an annual basis.

Improve the delivery of written information to disabled pupils

This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts, textbooks and information about school events. The information should take account of pupils' disabilities and pupils and parents preferred formats and be made available within a reasonable timeframe.

In planning to make written information available to disabled pupils we again need to establish the current level of need and be able to respond to changes in the range of need. The school will need to identify agencies and sources of such materials to be able to make the provision when required. The school's ICT infrastructure will enable us to access a range of materials supportive to need.
